MESSAGE

I am delighted to learn that National Institute of Technology, Karnataka, Surathkal is holding the Diamond Jubilee-year Convocation.

The 21st century will be a century of nations and societies that stand on the four pillars of technology, innovation, ideas and research. Technology is a bridge between the aspirations and achievements. Our vision of a New India is rooted in leveraging technology to attain the objective of 'Sabka Saath Sabka Vikas'. Technological interventions have ushered in a positive transformation and enhanced the 'Ease of Living' for the common people. Institutes like N.I.T must utilize the latest technological tools to resolve the day-to-day problems of the masses.

The Diamond Jubilee-Year Convocation is a momentous occasion for the students, teaching and administrative faculty and the staff. Convocation does not mark the end of learning, but the evolution of a new, higher learning in professional field of activity. The efforts of the students and the faculty must be to make a greater contribution to nation-building and take the Institute and the nation to higher levels of excellence.

I wish the Diamond Jubilee-Year Convocation – the 17th Annual Convocation of National Institute of Technology, Karnataka all success.

(Narendra Modi)
